

Holcomb—Hixson

“Rose List 2019”

In our goal to provide the best roses and help you be successful rose growers, we are bringing in our roses earlier and potting them earlier to allow a more well developed root system by spring. This will allow you a larger window of opportunity to buy premium roses and still save money!

Our large 10” pots of premium soil allow maximum root size and are still a better value than smaller cardboard boxes or direct bare-root.
